Dear Radio License Applicant:

We have reviewed the FCC's public record and found that your two-way radio license is due for renewal. Unfortunately, the convenient automated renewal FCC Form 574R has been eliminated. The replacement FCC Form 601 is time-consuming.

We would like to assist you in the preparation and filing of required documentation to obtain a current updated license at a reasonable cost.

Please follow these steps:

- 1) Review your current radio system/license for any changes or modifications. Fill in and make corrections accordingly on the attached "License Data Sheet." Note: Failure to modify your radio license properly constitutes unlawful use of a radio system and subjection to FCC fines.
 - 2) Mail the following items to Bob's Electronics:
 - a) **License Data Sheet** (completed)
 - b) **Copy of your Radio Station License**
 - c) **Check or money order** for the preparation fee of \$65.00. (Payable to "Bob's Electronics")
 - 3) Bob's Electronics completes your application for renewal and mails the Remittance Form 159 back to you for required signatures.
 - 4) Mail the signed Form 159 and the renewal fee of \$105.00 to the Federal Communications Commission. (Payable to the "FCC")
-

Important: Filing procedures require your immediate attention to guarantee a timely filing. Applications can be made up to 90 days prior to your expiration date. There is NO grace period after your expiration date. The duration of your FCC renewal license will be 10 years.

If you need assistance regarding your licensing, please contact Bob's Electronics 8 a.m.–5 p.m., Mon. thru Fri. Thank you and we look forward to your business.

FCC Renewal Procedures:

The FCC notifies each licensee approximately 90 days in advance of the expiration date. The FCC clearly states, "We will not provide special consideration to certain classes of licenses... While we do send receive such notices, such notices are not required, and we take no responsibility for any failure to send or receive such notices. The act of filing a renewal application remains the exclusive responsibility of the licensee."

License Data Sheet

Renewal Applicant: To begin the license renewal process, first review your current radio system/license for any changes or modifications. Fill out this sheet and make those changes or modifications. Mail this sheet, a copy of your Radio Station License, and a \$65 check for our preparation fee to “Bob’s Electronics.”
